

Class performance

Example DET class | Fictional students and data

2026-10-01 to 2026-10-14 · UTC

What stands out

Based only on the selected students and period.

Observation	Students
Completed at least one question	4 of 4
No recorded practice in this period	0
DET average first-to-latest change: 7.5	4 with at least two scored tests

DET score progress

First and latest full mock scores in the selected period.

First (indigo) · Latest (orange)

Student	First	Latest	Change	Tests
Maya Chen	100	115	15	2
Alex Rivera	110	120	10	2
Sam Taylor	120	130	10	2
Jordan Lee	115	110	-5	2

DET skill averages

Based on each student's latest full mock test in the selected period.

Average (indigo)

Skill	Average	Students
Reading	125	4
Writing	115	4
Listening	125	4
Speaking	110	4

Class activity

Questions completed by calendar day in UTC. Days without activity are omitted.

Practice questions (indigo) · Test questions (orange)

Date	Practice questions	Test questions
2026-10-02	120	90
2026-10-09	180	90

Students needing attention

Signals for teacher review, not diagnoses. A score decline compares first and latest mocks in this period.

Student	Product	Reason
Jordan Lee	DET	Mock score decreased by 5

Student overview

Study hours include recorded question activity only.

Student	Email	Product	Questions	Active days	Tracked hours	Tests
Maya Chen	maya.chen@example.com	DET	150	2	2.5	2
Alex Rivera	alex.rivera@example.com	DET	130	2	2.2	2
Sam Taylor	sam.taylor@example.com	DET	120	2	2	2
Jordan Lee	jordan.lee@example.com	DET	80	2	1.3	2

Goals

Current targets and latest full mock scores in the selected period.

Student	Product	Target	Latest	Test date
Maya Chen	DET	130	115	2026-11-01
Alex Rivera	DET	130	120	2026-11-01
Sam Taylor	DET	130	130	2026-11-01
Jordan Lee	DET	130	110	2026-11-01

Study plans

Plan active at the end of the period. Completed days count only days already due.

Student	Required days due	Days completed	Total days
Maya Chen	14	12	30
Alex Rivera	14	13	30
Sam Taylor	14	14	30
Jordan Lee	14	9	30

Report notes

EXAMPLE REPORT: All student names, email addresses, scores, and activity shown here are fictional. This is an illustration of the Teacher Hub report format, not evidence of student outcomes.

Mock scores are practice estimates, not official test results.

Activity includes questions completed inside mock and official practice tests. Study time is recorded for 480 of 480 questions; untracked time is not estimated.

Progress compares each student's first and latest full mock in this period. Latest and change require at least two tests. Product groups are never averaged together.

Goals reflect current student settings. Study-plan completion is measured through the end of the selected period. A plan day counts only when all required items are completed.
